Material	50733794
Order	7012003308 000010
Delivery	7615517406 900001
Batch	712474
Quantity	25,000 KG
Total	25,000 KG
Transport	

Characteristic Method	Unit	Value	Lower Limit	Upper Limit
Filler Content ISO 3451	%	29,4	28,0	32,0
Moisture Content ASTM D6980	%	0,11		0,20
Color INTERNO		OK		
Particules Size INTERNO		OK		
Contamination INTERNO		OK		

The moisture content characteristic represents the average analysis value of the samples collected at the time of packaging.
The moisture content can be influenced by the conditions of transport, storage and storage time.
The maximum recommended humidity for processing is 0.2%, however, due to the technical characteristics of the transformation process and the specific material, prior drying of the material may be necessary to provide superior performance during the process and ensure the properties profile of the product material.
